

SEE CLEARLY. DRIVE SAFELY. TRUST ROAD CHOICE.

Road Choice headlights use high-grade polycarbonate lenses and UV-resistant coatings. The same premium materials found in factory-installed lighting – for clear, consistent performance mile after mile. Every headlight is DOT and FMVSS108 certified and tested for vibration, thermal shock, humidity, and dust – so you can rely on bright, dependable light in any condition.

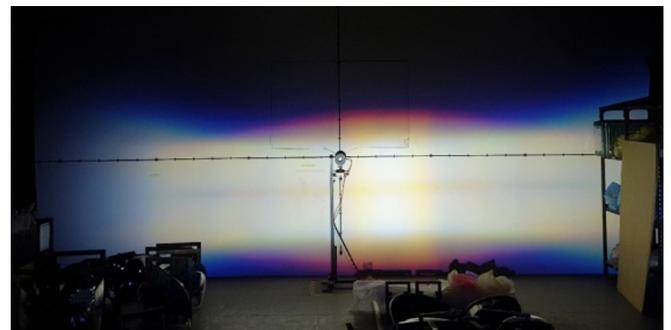

KEY SPECS

- Verified beam pattern and photometric testing
- DOT & FMVSS108 compliant
- IP65 rating for dust and moisture resistance
- Designed for OE-level performance
- Plug-and-play installation
- OE-grade UV-resistant polycarbonate lens
- Backed with a 3-year limited warranty

Precision optics and verified beam patterns deliver uniform light and better night visibility without stray glare. Upgraded reflectors and seals protect against moisture and haze to keep performance steady over time. Each design matches OEM fit for quick, clean installation with no extra work.

Every production run is photometrically tested on certified equipment to confirm beam accuracy and output meet DOT standards. Backed by a solid warranty: one year/unlimited mileage for halogen, three years/unlimited mileage for LED.

SEE THE DIFFERENCE

LOW BEAM

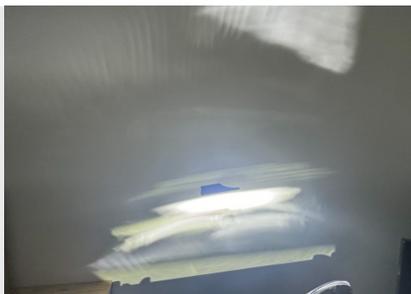

ROAD CHOICE

- ✓ Uniform light
- ✓ Clear cutoff
- ✓ Safe for oncoming drivers

COMPETITOR A

- ✗ Uneven spread
- ✗ Stray glare
- ✗ Poor alignment

HIGH BEAM

ROAD CHOICE

- ✓ Balanced
- ✓ Precise beam
- ✓ Consistent with OEM pattern

COMPETITOR A

- ✗ Hot spots
- ✗ Stray scatter
- ✗ Poor match
