

ECA CLUTCH

ROAD CHOICE® now offers ECA self-adjusting clutches, for UltraShift® PLUS transmissions, as an addition to our extensive line of medium and heavy-duty self-adjust and manual-adjust clutches. Each Road Choice clutch is backed by a 24 month/unlimited mileage warranty to give you confidence on the road.

FEATURES AND BENEFITS

- Made from all-new parts
- Manufactured and assembled in USA
- Low capacity inertia brake (LCIB) included in each clutch kit
- Cryogenically treated disc springs for longer life
- Sealed release bearing to prevent contamination
- Crimped clad sleeve bushings to help with misalignment issues
- High-performance ceramic friction material
- Patented self-adjusting mechanism
- Patented contamination prevention – seal
- Easy adjustments. ECA clutches can be reset in vehicle if necessary

PART NUMBER	DESCRIPTION	EATON CROSS-REFERENCE
CLU12200235A	15.5" x 2", 14 spline, 6 paddle, 7 spring NVH, 1850 Ft-Lbs.	122002-35A
CLU12200342A	15.5" X 2", 14 spline , 6 paddle, 7 spring NVH, 2250 Ft-Lbs.	122003-42A

SERVICEABILITY

- No complicated reset procedure
- Resets with manual adjuster
- Same procedure as manual adjust clutch

INSTALLATION

- No need to retrain technicians
- Same installation procedure as the self-adjust clutch

WILL NOT OVER ADJUST

- Not susceptible to outside forces (e.g., backing into dock or hitting potholes during disengagement)

CONTAMINATION PREVENTION TECHNOLOGY

- Patented self-contained components in adjuster maintain optimal adjusting function
- Patented Actively Expanding Seal (A.E.S.) creates an industry-first anti-contamination enclosure
- Specialized lubrication ensures optimal adjustments throughout the life of the clutch
